

LOLLAPALLOOZA – TESTING PROTOCOLS

In accordance with City of Chicago requirements, full COVID-19 vaccination or negative COVID-19 test results will be required to attend Lollapalooza 2021. For patrons who are not fully vaccinated, a negative COVID-19 test result must be obtained within 72 hours of attending Lollapalooza.

When to get tested

For patrons who are not fully vaccinated, you must get tested and have a negative result no more than 3 days prior to each day of attendance.

- For example:
 - A negative test 3 days prior the day 1 of Lollapalooza will allow you to attend on day 1, but not on day 2. To enter on day 2, you will need another negative test result, obtained within 3 days of entry.

What type of test result do you need?

The test must be a COVID-19 viral test (nucleic acid amplification test [NAAT] or antigen test) with Emergency Use Authorization (EUA) from the U.S. Food and Drug Administration (FDA). Self-tests (sometimes referred to as home test) and rapid tests are acceptable as long as they are FDA-EUA approved viral tests and are accompanied by electronic or printed documentation of results.

Electronic or printed evidence of negative test result must include:

- Type of test
- Entity issuing the result (e.g. healthcare entity, laboratory, manufacturer)
- Specimen collection date.
- Information that identifies the person tested: full name and date of birth

Test kits are not acceptable evidence of negative result. Negative test with the information above must be electronic or printed.

Where to get tested

The best way to get tested is by calling your healthcare provider or conveniently ordering self-administered at-home tests. COVID-19 testing is also offered in many pharmacies and healthcare centers. Nearby testing locations are on the back of this flyer.

For additional information about COVID-19 testing, visit [Chicago.gov/COVIDTest](https://chicago.gov/COVIDTest)

Nearby COVID-19 testing locations:

CDPH does not endorse any particular COVID-19 testing provider. COVID-19 testing providers are located in all areas of the City. Go to [Chicago.gov/COVIDTest](https://chicago.gov/COVIDTest) for details and more providers.
